

# ***SUMMARY of CHANGE***

AR 750-1

Army Materiel Maintenance Policy

This revision--

- o Incorporates Army Regulation 750-2, which has been superseded.
- o Implements Defense Reform Initiative Decision 54 on customer wait time (chap 3).
- o Revises the Army Maintenance Standard (para 3-2).
- o Establishes new policy on programming resources to support maintenance operations, including contract logistics support or modification table of organization and equipment organizations (para 3-3).
- o Revises policy on Army central archiving of maintenance records in the work order logistics file of the logistics integrated database (paras 3-5 and 4-14).
- o Defines steam-cleaning requirements (para 3-12).
- o Revises policy on the turn-in of unserviceable, repairable items (para 3-12).
- o Names Commander, U.S. Army Materiel Command as the National Maintenance Manager (emerging) (para 3-13).
- o Changes specialized repair activity language to specialized repair authority (para 3-18) and aligns policy with the National Maintenance Program (para 7-13).
- o Adds new modification language and aligns with AR 750-10 (chap 4).
- o Changes gun tube effective full coverage requirement (remaining tube life) for items transferring into prepositioned stocks or out of the Army depot system from 75 rounds to 500 rounds. All other transfers remain at 75 rounds (para 4-6).
- o Revises maintenance management systems policy bases on the introduction and use of Standard Army Management Information System (paras 4-13 and 4-14).
- o Revises work order logistics file policy (para 4-14).
- o Modifies policy on contractors on the battlefield (paras 4-19, 6-4, and 6-5).
- o Revises intelligence and electronic warfare maintenance polices (chap 5, sec III).

- o Revises interactive electronic technical manuals policy (para 6-11).
- o Revises sample data collection policy; changes Army lead organization (para 7-4).
- o Revises Army Modification Program policy (para 7-5).
- o Clarifies operational readiness float/repair cycle float policy (para 7-6).
- o Adds National Tire Retread Program responsibilities (para 7-11).
- o Changes policy on maintenance of pneumatic tires (para 7-11).
- o Revises Army maintenance assistance and instruction team policy (para 7-14).
- o Adds Ground Safety Notification System details (para 7-16).
- o Adds maintenance advisory message details (para 7-17).
- o Adds specific details on depot maintenance policy (chap 8).
- o Establishes workload to be either overhauled or rebuilt (chap 8).
- o Defines Depot Maintenance Corporate Board (para 8-1).
- o Defines depot maintenance core requirement (para 8-1).
- o Adds reporting requirements on depot workload (para 8-9).
